Checkpoint: 02

Date: 2026-01-10

Total Stories: 17

Status: 16 Active, 1 Deferred

Table of Contents

Executive Summary	1
Checkpoint Overview	2
Domain 08 - P2P Reservation Confirmation	3
Domain 10 - Asset Uploads	4

Executive Summary

This checkpoint captures the complete P2P reservation confirmation flow and asset upload capabilities. Domain 08 details payment verification, TTL handling, and owner proof review. Domain 10 introduces uploads for avatars, payment proofs, court photos, and organization logos, with a deferred list for future optimizations.

Checkpoint Overview

Domain	Stories	Status
08-p2p-reservation-confirmation	11	Active
10-asset-uploads	5 Active, 1 Deferred	Active + Deferred

Domain 08: P2P Reservation Confirmation

Overview

Enhances the simplified paid reservation flow with TTL countdown, explicit payment instructions, T&C acknowledgement, optional payment proof submission, and owner proof review. Includes expiration handling driven by cron jobs and UI states for expired reservations.

US-08-01

Active

Player Completes P2P Payment Flow

*As a **player**, I want to **complete the full P2P payment flow with timer, instructions, and proof** so that **I can provide payment verification to the court owner and understand the payment deadline**.*

Acceptance Criteria

Full P2P Flow Complete

Given all sub-stories are implemented
When a player books a paid court
Then they see timer, instructions, checkbox, and proof form

Backward Compatibility

Given existing reservations without proof
When owner views pending reservations
Then proof remains optional

US-08-01-01

Active

Payment Page: TTL Countdown Timer

*As a **player**, I want to **see a countdown timer on the payment page** so that **I know how much time I have to complete my payment before the reservation expires**.*

Acceptance Criteria

Display Countdown

Given reservation is AWAITING_PAYMENT
When I view the payment page
Then I see a live countdown timer

Warning State

Given less than 5 minutes remaining
Then timer shows warning styling and text

Expired State

Given timer reaches zero
Then expired messaging appears and submission is disabled

No Timer After Marked

Given status PAYMENT_MARKED_BY_USER
Then no countdown is shown

Page Load After Expiration

Given expiresAt is past
Then expired messaging shows immediately

Edge Cases

Scenario	Expected Behavior
Page loaded after expiration	Show expired immediately
Timer expires while on page	Disable submit and show message
User navigates away and back	Timer resumes correctly

Scenario	Expected Behavior
Network issues	Timer continues client-side
No expiresAt set	No timer displayed

US-08-01-02

Active

Payment Page: Display Payment Instructions

*As a **player**, I want to **see the court owner's payment details** so that **I know where to send my payment**.*

Acceptance Criteria

Display GCash Details

Given GCash is configured
Then number is shown with copy

Display Bank Details

Given bank is configured
Then bank name/account shown with copy

Custom Instructions

Given custom instructions exist
Then text is displayed

Fallback

Given no details configured
Then generic guidance appears

Multiple Methods

Given multiple methods configured
Then all methods show with copy

Edge Cases

Scenario	Expected Behavior
No payment details	Generic fallback text
Only GCash	GCash section only
Only bank	Bank section only
Copy fails	Show error toast
Long instructions	Wrap text

US-08-01-03

Active

Payment Page: T&C Explicit Checkbox

*As a **player**, I want to **explicitly acknowledge the Terms & Conditions and payment disclaimer** so that **I understand KudosCourts is not responsible for payment disputes**.*

Acceptance Criteria

Checkbox Required

Given checkbox unchecked
Then I Have Paid is disabled

Checkbox Text

Given I am on payment page
Then legal disclaimer text is visible

Link to Terms

Given I click Terms link
Then I see the T&C

Enable Button

Given I check the box
Then I Have Paid enables

Audit Trail

Given I submit
Then termsAcceptedAt recorded

Edge Cases

Scenario	Expected Behavior
Checkbox unchecked	Button stays disabled
Uncheck after check	Button disables again
Refresh page	Checkbox resets unchecked
Submit fails	Checkbox state preserved

US-08-01-04

Active

Payment Page: Payment Proof Form

*As a **player**, I want to **optionally submit payment proof (reference number, notes, screenshot)** so that **the court owner can verify my payment more easily**.*

Acceptance Criteria

Proof Optional

Given I leave proof empty
Then I can still mark payment

Reference Number

Given I am on payment page
Then optional reference field is shown

Notes Input

Given I am on payment page
Then optional notes field is shown

File Upload (US-10-02)

Given uploads enabled
Then screenshot upload field appears

Proof Saved

Given proof entered
When I click I Have Paid
Then proof is saved

Edge Cases

Scenario	Expected Behavior
Submit without proof	No proof record created
Reference only	Proof saved with reference
Notes only	Proof saved with notes
File upload fails	Error + allow retry
Long reference/notes	Max 100/500 chars

US-08-02

Active

Owner Reviews Payment Proof

*As a **court owner**, I want to **view payment proof submitted by players** so that **I can verify payment before confirming the reservation**.*

Acceptance Criteria

Proof Visible

Given player submitted proof
Then owner sees proof details

No Proof Handling

Given no proof submitted
Then show "No proof provided"

US-08-02-01

Active

Backend: Include Payment Proof in Response

*As the **backend system**, I need to **include payment proof data in owner reservation responses** so that **the frontend can display proof to owners**.*

Acceptance Criteria

Include Proof

Given proof exists
Then response includes paymentProof object

Proof Object Shape

Then includes referenceNumber, notes, fileUrl, createdAt

No Proof

Given no proof
Then paymentProof is null

Scoped Access

Given reservation belongs to org
Then owner can see proof

Edge Cases

Scenario	Expected Behavior
No proof submitted	paymentProof: null
Only reference	Reference returned, others null
Only notes	Notes returned, others null
Only file	fileUrl returned, others null

US-08-02-02

Active

Owner Dashboard: Display Payment Proof Card

*As a **court owner**, I want to **see payment proof details on the reservation card** so that **I can verify payment before confirming**.*

Acceptance Criteria

Proof Card Displayed

Given proof exists
Then Payment Proof section appears

Reference Displayed

Given reference exists
Then show reference with copy

Notes Displayed

Given notes exist
Then show notes text

Screenshot Displayed

Given fileUrl exists
Then show thumbnail with preview

No Proof State

Given no proof
Then show "No proof provided"

Doesn't Block Actions

Then confirm/reject still available

Edge Cases

Scenario	Expected Behavior
No proof	Show no-proof state
Only reference	Show reference only

Scenario	Expected Behavior
Only notes	Show notes only
Only screenshot	Show thumbnail only
Image load fails	Show placeholder/error

US-08-03

Active

TTL Expiration Handling

*As the **system**, I need to **handle expired reservations correctly** so that **slots are released and users see appropriate messaging**.*

Acceptance Criteria

Expired Reservations Handled

Given expiresAt in past
When cron runs
Then reservation becomes EXPIRED and slot becomes AVAILABLE

UI Reflects Expiration

Given reservation expired
Then payment and detail views show expired messaging

US-08-03-01

Active

Backend: Verify Cron Job E2E

*As a **developer**, I need to **verify the expiration cron job works end-to-end** so that **reservations expire correctly in production**.*

Acceptance Criteria

Cron Endpoint Works

Given expired reservation exists
When cron endpoint runs
Then reservation expires and slot releases

Payment Marked Expires

Given PAYMENT_MARKED_BY_USER expired
Then cron expires it

Vercel Cron Configured

Then cron runs on schedule with CRON_SECRET

Error Handling

Then errors logged and processing continues

Idempotency

Given already EXPIRED
Then cron skips it

Edge Cases

Scenario	Expected Behavior
No expired reservations	Success with count 0
Multiple reservations	All processed
Partial failure	Return partial success + errors
Invalid CRON_SECRET	401 Unauthorized

US-08-03-02

Active

Frontend: Expired Reservation UI States

*As a **player**, I want to **see clear messaging when my reservation has expired** so that **I understand what happened and can book again**.*

Acceptance Criteria

Payment Page - Already Expired

Given reservation is EXPIRED
Then expired message + book again link

Payment Page - Expires While Viewing

When timer reaches zero
Then page updates and disables submit

My Reservations - Expired Status

Then list shows expired badge and muted styling

Reservation Detail - Expired

Then expired heading + slot summary + book again

Cannot Mark Payment

Then I Have Paid is disabled

Edge Cases

Scenario	Expected Behavior
Timer expires while typing	Disable submit, show expired
Refresh after expiry	Show expired immediately
Deep link to expired payment	Show expired state
Mixed reservations list	Expired visually distinct

Domain 10: Asset Uploads

Overview

Introduces Supabase Storage-backed uploads for player avatars, payment proofs, court photos, and organization logos. Includes role-based access rules and upload validations, with a deferred list for post-MVP optimizations.

US-10-01

Active

Player Uploads Profile Avatar

*As a **Player**, I want to **upload a profile picture** so that **court owners can recognize me when I make reservations**.*

Acceptance Criteria

First-time Upload

Given I select a valid image
Then preview shows and avatar URL saved

Replace Existing Avatar

Given avatar exists
Then new upload replaces it

Drag & Drop

When I drag an image
Then upload proceeds

Validation

Then errors for invalid type or >5MB

Security

Then other users cannot access avatar

Edge Cases

Scenario	Behavior
Network error	Show error toast, allow retry
Slow connection	Show upload progress
EXIF rotation	Preview oriented correctly

Form Fields

Field	Type	Required
Avatar	file (image)	No

US-10-02

Active

Player Uploads Payment Proof

*As a **Player**, I want to **upload a screenshot of my payment** so that **the court owner can verify I have paid for the reservation**.*

Acceptance Criteria

Upload Proof

Given I select a valid image
Then proof uploads and is linked to reservation

Multiple Proofs

Then multiple uploads are stored

View Own Proof

Then I can see my proofs in reservation details

Validation

Then cannot upload for others or for confirmed/expired

Security

Then owner can view, other players cannot

Edge Cases

Scenario	Behavior
Upload fails mid-transfer	Show error, allow retry
Reservation expires during upload	Complete upload, mark expired
Wrong image uploaded	Allow additional upload

Form Fields

Field	Type	Required
Payment Proof	file (image)	Optional
Reference Number	text	Optional

US-10-03

Active

Owner Uploads Court Photos

*As a **Court Owner**, I want to **upload photos of my courts** so that **players can see what the facilities look like before booking**.*

Acceptance Criteria

Upload Photos

Given valid image selected
Then photo uploads and appears in gallery

Multiple Photos

Then multiple photos display and can be reordered

Primary Photo

Then primary photo appears first in listings

Delete Photo

Then photo removed from storage and gallery

Validation

Then errors for non-owner or invalid files

Edge Cases

Scenario	Behavior
Delete last photo	Allowed; show placeholder
Slow connection	Show progress, allow cancel
Duplicate image	Allowed

Form Fields

Field	Type	Required
Court Photos	file[] (images)	No
Display Order	number	Auto
Is Primary	boolean	Auto

US-10-04

Active

Owner Uploads Organization Logo

*As a **Court Owner**, I want to **upload my organization's logo** so that **players can easily identify my brand when viewing my courts**.*

Acceptance Criteria

Upload Logo

Then logo uploads and appears in profile

Replace Existing Logo

Then new logo replaces old

Remove Logo

Then logo is deleted and placeholder shows

Validation

Then errors for invalid file or size

Security

Then only owner can upload

Edge Cases

Scenario	Behavior
Non-square image	Accept and crop/fit
Small image	Accept with quality warning
Transparent PNG	Preserve transparency

Form Fields

Field	Type	Required
Organization Logo	file (image)	No

US-10-05

Active

Admin Uploads Court Photos

*As a **Platform Admin**, I want to **upload photos for curated courts** so that **players can see what the court looks like even when the owner hasn't claimed it yet**.*

Acceptance Criteria

Upload Curated Court Photo

Then photo uploads and appears on court detail

Upload for Any Court

Then admin can upload regardless of ownership

Manage Multiple Photos

Then reorder/delete photos as admin

Delete Photo

Then photo removed from storage

Photos Persist After Claiming

Then photos remain after claim approval

Edge Cases

Scenario	Behavior
Admin uploads, owner deletes later	Owner has control after claim
Bulk upload	Sequential uploads
Court transitions back to curated	Photos remain

Form Fields

Field	Type	Required
Court Photos	file[] (images)	No
Display Order	number	Auto
